

REMARKS

Reconsideration of the above referenced application is respectively requested in view of the above amendments and these remarks. Claims 9-11, 15-25, 27-28 and 30-39 are pending. Claims 12-14, 26 and 29-30 are cancelled without prejudice.

Claims 1-13, 15-29 and 31-39 are rejected under 35 U.S.C. § 103(a) as being unpatentable over United States Patent Application Publication No. 2002/0051432 to Shin in view of United States Patent Application Publication No. 2004/0246990 to Krishnamurthi et al. and further in view of United States Patent No. 6,424,638 to Ray et al. Claims 14 and 30 are objected to as being dependent upon a rejected base claim but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims. Applicants note with appreciation that the subject matter of these claims is deemed to be allowable if rewritten to include all limitations of the superseding and rejected claims.

The applicants respectfully disagree with the Examiner's rejection set forth in the present Office Action. However, desiring to expedite the issuance of the patent for the present invention and in view of the Examiner's indications of amendments that would confer allowance, the Applicants have amended claim 9 to incorporate the limitations of claims 12-14 and amended claim 23 to incorporate the limitations of claims 26 and 29-30. Claims 1-8 have been cancelled. The remaining dependent claims retain their dependencies. No remaining grounds for rejection or objection being given, the claims in their present form are asserted to be patentable over the prior art of record.

As the Applicants have overcome all substantive rejections and objections given by the Examiner and have complied with all requests properly presented by the Examiner, the Applicants contend that this Amendment, with the above discussion, overcomes the Examiner's objections to and rejections of the pending claims. Therefore, the Applicants respectfully solicit allowance of the application. If the Examiner is of the opinion that any issues regarding the status of the claims remain after this response, the Examiner is invited to contact the undersigned representative to expedite resolution of the matter.
